

APPENDIX B: LEVEL OF ACTIVITY TABLE

In order to adequately assess your application, Parks Canada requires information on areas where you plan to conduct your trips in order to identify routes/areas, activity detail and level of activities proposed. A *Level of Activity Table* must be completed for **each activity in each park** that you are planning to operate. Where a list of official trail names is unavailable, a map depicting the route must be appended, highlighting specific area(s) of operation for each park you are proposing to operate in.
