## How to play

Be the fastest to travel around the country!  
For 2 to 6 players. The youngest one goes first.

Players leave from the East (No.1) and head West (No. 95).

Players take turns rolling the die and move ahead the same number of squares as there are spots on the die.

**RED SQUARES:** Don't disturb the animals. Watch them from a distance and go back 4 squares.

**GREEN SQUARES:** Are you adopting the attitudes of an exemplary Xplorer? Great! Move ahead 4 squares.

The first to arrive at the end of the country wins.
